

Annual PREA Report September 2017

Hampden
County
Sheriff's
Department

Background:

The Prison Rape Elimination Act (PREA) of 2003 was enacted to “provide for the analysis of the incidence and effects of prison rape in Federal, State, and local institutions and to provide information, resources, recommendations and funding to protect individuals from prison rape” (PREA Resource Center). The goal of the act is to prevent, detect, and respond to sexual abuse and harassment. The act was unanimously passed by Congress and signed into law by President George W. Bush.

The final rule became effective on August 20, 2012 after three years of review by the Department of Justice (DOJ). The final rule encompasses and defines four types of facilities which fall under the purview of the act: Adult Prisons and Jails, Lockup, Community Confinement, and Juvenile Facilities. In order to maintain compliance with the ruling, agencies are required to have 1/3 of each facility type audited by DOJ certified auditors per year beginning August 20, 2013. If unable to complete an audit within this timeframe PREA allows for a “Governor’s Assurance” during the initial audit cycle. This assurance requires an allocation of Federal Grant funding to projects working on PREA compliance. A very successful PREA Audit was conducted in June of 2015 for the Hampden County Sheriff’s Department’s (HCSD) Main Institution, Pre-Release Center, and the Western Massachusetts Addiction Center and an even more successful PREA Audit was conducted at the Women’s Correctional Center in June of 2016. This completes the first 3-year cycle of PREA compliance for the department.

This report has been promulgated pursuant to the requirements set forth in the Prison Rape Elimination Act of 2003, 115.88/115.401.

Annual Report to the Bureau of Justice Statistics:

PREA standard 115.87/115.287 requires the collection and publication of aggregated data related to incidents of sexual abuse. The standard requires the publication of incident based data derived from the definitions set forth in the BJS annual Survey of Sexual Victimization (SSV). Aggregated data from all HCSD facilities is included in this report.

In addition to this report, the U.S. Census Bureau acting on behalf of BJS requires all correctional agencies to submit a yearly report regarding sexual victimization of inmates; the SSV. The SSV is completed for each calendar year and includes incident-based and demographic data. This report is submitted annually and once formatted is available on the BJS website.

Report Timeframe:

This report utilizes the data gathered from calendar year 2016, which is the format utilized by BJS for the SSV. The information and corrective actions cited in this document are a compilation of efforts which began in 2013.
