DESCRIPTIVE OVERVIEW OF THE 2018 RELEASE COHORT

Executive Summary

At the end of each year, a descriptive overview is prepared of those offenders released during the year. This allows us to monitor any changes in the population and track trends from year to year. Data is used for population management and program development.

Sentenced offenders released to the street will be tracked for three years post release as part of our ongoing recidivism study. Recidivism rates are reported at one and three-year intervals.

There were 6442 total releases from the facilities operated by the Hampden County Sheriff's Department in 2018 (1972 females, 4470 males). This represents an overall increase of 346 (5.8%) from 2017. All of the increase can be attributed to the 362 civilly committed males released from the Stonybrook Stabilization and Treatment Center.

A total of 1459 sentenced offenders were released (364 females, 1095 males), an decrease of 170 (10.4%) from 2017. 1234 sentenced offenders (335 females, 899 males) were *released to the street* via parole or expiration of sentence, a decrease of 231 from the previous year. 82 sentenced offenders were released to other authorities. There were 89 releases from Foundation House (5 women, 84 men) and 2 HOPE parole releases. One sentenced male died in custody of natural causes. 85 sentenced offenders (22 women, 63 men) were released back to the jail to address open charges.

A detailed analysis of sentenced offenders released to the street can be found in **Section I.**

There were 3667 pretrial releases (1407 females, 2260 males), a decrease of 11% from 2017. 3263 pretrial detainees were *released to the street* via bail, release at court or sentence to time served (1353 females, 1910 males). 369 detainees were released to other authorities and 34 probates purged or paid their debt and were released. One female pretrial detainee died in custody.

A detailed analysis of the pretrial release cohort can be found in **Section II**.

146 individuals (9 females, 137 males) received a sentence to Mass DOC and were transported to MCI Framingham or MCI Cedar Junction. 2 males and 4 females were transferred to a DOC facility for a reason other than a new sentence or parole violation. These reasons included commitment to Bridgewater State Hospital, DOC Reentry Program failure or court appearance on existing case.

A detailed analysis of offenders sentenced to DOC can be found in **Section III**.
