

Hampden County Sheriff's Department

Annual PREA Report 2020

Background:

The Prison Rape Elimination Act (PREA) of 2003 was enacted to “provide for the analysis of the incidence and effects of prison rape in Federal, State and local institutions and to provide information, resources, recommendations and funding to protect individuals from prison rape” (PREA Resource Center). The goal of the act is to prevent, detect, and respond to sexual abuse and harassment. The act was unanimously passed by Congress and signed into law by President George W. Bush.

The final rules became effective on August 20, 2012 after three years of review by the Department of Justice (DOJ). The final rule encompasses and defines four types of facilities which fall under the purview of the act: Adult Prisons and Jails, Lockup, Community Confinement and Juvenile Facilities. In order to maintain compliance with the ruling, agencies are required to have 1/3 of each facility type audited by DOJ certified auditors per year beginning August 20, 2013. If unable to complete an audit within this timeframe PREA allows for a “Governor’s Assurance” during the initial audit cycle. This assurance required an allocation of Federal Grant funding to projects working on PREA compliance. The first 3-year audit cycle was very successful with the audits in June of 2015 for the Hampden County Sheriff’s Department’s (HCSD) Main Institution, Pre-Release Center (PRC) and the Western Massachusetts Recovery and Wellness Center (WMRWC) in June of 2016. The second 3-year audit cycle continued with the successful audits of the Main Institution and PRC in August of 2017, the Western Massachusetts Recovery and Wellness Center (WMRWC) in August of 2018 and the Western Massachusetts Regional Woman’s Correctional Center (WMRWCC) in August of 2019. September 2020 saw the Main Institution and Pre-Release Center under its third 3-year audit cycle.

This report has been promulgated pursuant to the requirements set forth in the Prison Rape Elimination Act of 2003, 115.88/115.401.

Annual Report to the Bureau of Justice Statistics:

PREA standard 115.87/115.287 requires the collection and publication of aggregated data related to incidents of sexual abuse. The standard requires the publication of incident based data derived from the definitions set forth in the BJS annual Survey of Sexual Victimization (SSV). Aggregated data from **all HCSD facilities** is included in this report.

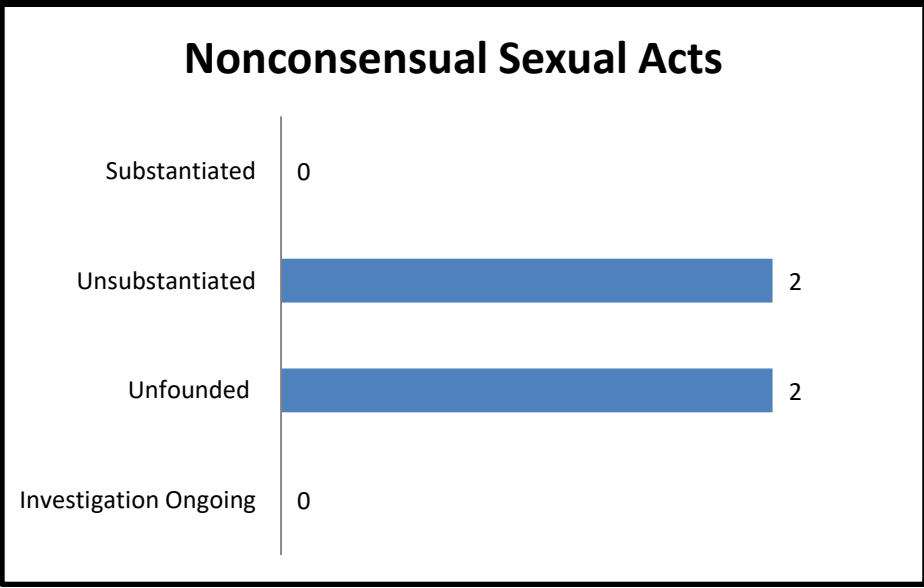

In addition to this report, the U.S. Census Bureau acting on behalf of BJS requires all correctional agencies to submit a yearly report regarding sexual victimization of inmates; the SSV. The SSV is completed for each calendar year and includes incident-based and demographic data. This report is submitted annually and once formatted is available on the BJS website.

Report Timeframe:

This report utilizes the data gathered from calendar year 2020, which is the format utilized by BJS for the SSV. The information and corrective actions cited in this document are a compilation of efforts which began in 2013.

Inmate on Inmate Incident Data:

Data was collected from January 1, 2020 – December 31, 2020. During this time period there were a total of twenty-one (21) allegations of sexual abuse. For all the finalized investigations, only two (2) were substantiated.

Corrective Action:

Pursuant to PREA standard 115. 87 (Data Collection) & 115.88 (Data Review for Corrective Action); the HCSD continues to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training. This includes (1) identifying problem areas; (2) taking corrective action on an ongoing basis; and (3) preparation of this annual report, findings and corrective actions for each facility as well as the agency as a whole.

To this end, this report includes a comparison of the current year's data and corrective actions with those from prior years and provides an assessment of the agency's progress in addressing sexual abuse (see Table 1 and 2.)

The HCSD has a long history of implementing practices intended to prevent and respond to instances of sexual abuse and sexual harassment. Following the adoption of the PREA standards, the HCSD has implemented a number of enhancements to further combat sexual abuse and sexual harassment. The Department will continue to be pro-active in its PREA trainings, signage and education of staff and inmates in the "zero tolerance" policy. The Department will strive as a whole to protect and ensure the safety and well-being of all inmates entrusted to our custody.

The Department overall has demonstrated a statistical decrease in PREA cases in 2020. This is largely due to the lowered daily count due to Covid-19 and housing one inmate per cell at the WCC.
